LFH 7277

Professional transcription

SpeechExec Pro Transcription Set 7277 is a powerful and user-friendly digital transcription system that turns your computer into a highly sophisticated transcription machine. Providing a whole range of benefits to the busy transcriptionist, the software streamlines communications and allows you to organize recordings clearly and transparently. Along with a set of ergonomic accessories, SpeechExec Pro Transcription Set 7277 is the solution that sets the pace in today's fast-moving business world.

Manage your workload
- Simple control of all SpeechExec transcription functions with foot control for hands-free transcription
- Main application window displays a clear job overview of all dictation files and properties
- Automatic job notification ensures immediate notice of the arrival of a new dictation file
- Individual sort and filter options allow organization of workload
- Attaching a document directly to the dictation speeds up the workflow

PHILIPS

sense **and** simplicity

Product highlights

SpeechExec Pro Transcribe

Visual job overview
The visual workflow management and job overview enables you to organize and plan your workload more efficiently. Thanks to visual workflow management the transcription of priority documents in your preferred order is managed as straightforward as possible. Multiple sort/filter options allow an individual organization of files.

"New job" alarm
The alarm sound notifies the recipient of new jobs coming in, in order to allow an immediate start of the transcription.

Access to job information
Relevant data such as length, author name, key words and priority status are accessible throughout the entire transcription process by means of a dictation properties display.

Worklist / Workflow
Due to the familiar folder view, which is similar to Windows Explorer, the time needed to get accustomed to SpeechExec Pro can be kept to a minimum. A configurable worklist enables the user to sort, hide and show columns, etc., while the Job status indicator shows whether a dictation is pending, in progress or finished.

Attach a document
SpeechExec Pro Transcribe offers the capability to attach a document directly to a dictation. This supports document archiving and retrieval.

Versatile player
Various features, as for instance a graphical position indicator, an audio volume meter and audible scan function facilitate the transcription process. Speed control, DSS Pro / DSS / WAV / WMA / MP3 playback and automatic backspace provide first-class reproduction of your dictations.

Automatic file transfer and updates
Dictation files are transferred automatically using the network, email or FTP. Automatic updates via internet as well as the possibility to define default settings provide highly convenient administration.

Digital Speech Standard (.dss)
The .dss file format is the international standard for professional speech processing. Offering outstanding audio quality for recorded voice, .dss files allow a high compression rate, reduce file size, network traffic and required storage capacity. The format also allows additional information, such as client/patient name, document type to be stored in the file header, further facilitating file organization.

Earphones

Lightweight design of earphones
The durable, lightweight quality enhances comfort for extended wearing.

Under chin style
Designed for an under-the-chin fit for better comfort.

3 meter / 10-foot cable
The 3 meter / 10-foot cable gives you the freedom to move around your work area without having to remove your headset.

Foot Control

Ergonomically designed
The new Foot Control was developed in close cooperation with hospital ergonomists and professional end users in order to guarantee a smooth transcription process with minimal physical strain.

Configurable to individual needs
The pedal functions of the Foot Control can easily be adapted to one's personal preferences.

PC requirements (SpeechExec Pro)
- Minimum: Pentium III, 500MHz and 256 MB RAM
- Recommended: Pentium IV or similar, 1GHz and 1GB RAM
- Hard disk space: 100 MB for SpeechExec, 250 MB for Microsoft .NET Framework
- Sound card and headphone output or speakers
- 1 free USB port
- Recommended minimum transfer rate for LAN: 100 Mbit/s
- Operating system: Windows Vista, XP (SP 2), 2000 (SP 4)

Foot control

Specifications
- Connector: USB
- Product dimensions (W x D x H): 195 x 130 x 35 mm / 7.6 x 5.08 x 1.3 in.
- Weight: 660 g / 1 lb. 7 oz.

Earphones

Sound
- Acoustic system: Open
- Magnet type: Neodymium
- Diaphragm: PET dome
- Voice coil: Copper
- Sound quality: Optimized for voice reproduction
- Impedance: 2×32 Ohm
- Maximum power input: 2×10 mW
- Sensitivity: 103 dB
- Speaker diameter: 14 mm / ½ in.
- Type: Dynamic

Connectivity
- Cable connection: One-sided
- Cable length: 3 m / 10 ft
- Connector: 3.5 mm / 1/8 in. stereo, right angled
- Finishing of connector: Gold-plated
- Type of cable: Copper

Dimensions
- Length: 160 mm / 6.3 in.
- Width: 150 mm / 6 in.
- Height: 18 mm / ¾ in.
- Weight: 0.053 kg / 1.9 oz.

Green specifications
- Compliant to 2002/95/EC (RoHS)
- Lead-free soldered product

Package contents
- SpeechExec Pro Transcribe Software
- USB Smart Key
- USB Foot control 2330
- Stereo headphones 334
- User Manual
